The Democrats at Manti.

The Democrats of Manti enjoyed a triimph on Monday night. The occasion was a meeting at which Prof. Paul, who had been specially tayted from Salt Lake, discussed Thursday, June 11. for an hour and a half the principles of for an hour and a half the principles of Democracy. There was a large audience in the theatre, who followed with the greatest attention and interest the speech of the evening. The remarks of the Republican speakers of a few nights before were answered in neat and forcible terms, and the leading principles of the Democratic party presented with clearness and vigor. The demonstration of the sophisms indulged in by the Republican orators on the tariff question was particularly effective, and elicited round after round of hearty applause. The tariff question was presented with such simplicity that the audience did not tire in the least, and appeared to comprehend and approve of every proposition made and proved by the speaker, with the utmost plainness from official records.

Who pays the tariff taxes, how much they amount to, who gets the benefit of them, and their effect upon industry, were questions that were answered in a convincing manner with crushing facts and figures. It was shown especially that everything the farmer sells is sold in a free trade market at free trade prices, and everything he buys is bought in a protected market at protection prices.

The Democratic enthusiasm at Manti is Democracy. There was a large audience in

tion prices.

The Democratic enthusiasm at Manti is very apparent. The Republicans have been working hard in this town and exhibit some strength. All Sanpete is clamoring for Democratic speakers. Can't we have
